PI-1000 Series Software to transfer data

Question:

I want to transfer data from my PI-1030 to PC, what software I can use?

Model Applies to:

PI-1000 Series

Answer:

Please use our Argox software PhoenixVoler or Everlink.
It's downloadable from here:
http://www.argox.com/product/pi-1000/

PI series have four interfaces to connect: **USB**, **RS232**, **Bluetooth** and **WI-FI**. Each one can choose two ways as below.

Remote link: It is a unique protocol from Argox development. Visit Argox website below to download application.
http://www.argox.com/product/pi-1000/

Linking port: Developer can set up different interfaces USB/WIFI/COM/BT according to their application.

Important

Remote link has to use Argox application, such as PhoenixVoler or Everlink from Argox.
